Dear Parents / Carers,

Home Learning Timetable

I am enclosing a copy of the home learning timetable for this academic year.

For the majority of subjects all the students in one year are taught at the same time. This means that they should all be set home learning at the same time. For a small number of subjects at KS3, however, the lessons are at different points in the week. Your son / daughter will be able to confirm which class they are in and so which day they should receive home learning for that subject.

Home learning tasks will be recorded on the VLE as well as in log books. To support students understanding it is likely that there will be more details on the VLE especially for more complicated tasks.

If you have any concerns about home learning please in the first instance contact your child's teacher or the Head of Department.

Yours sincerely

Mr A Dewar
Assistant Headteacher

Key Stage 3 Home Learning timetable
